

New Looper Rolls

Required properties:

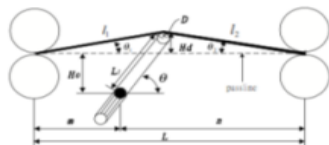

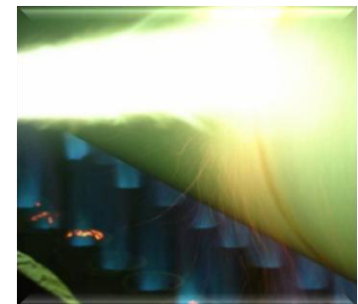

- Excellent corrosion & wear resistance
- Smooth surface during the operational time
- Longlife expectation & high plant availability
- Fewer replacements and less maintenance
- High quality & high output

Habets Solution: H.W.R. (High Wear Resistance) Looper Rolls

Main advantages:

- Special coating for higher temperatures and higher demands
- Almost no wear (max. 1.5 mm at the end of the service life)
- Cost reduction / More performance & production capabilities
- Innovative Coating with NiCrBSi+WC (corrosion & high wear resistance)
- Less „cobble“ & less maintenance
- High plant availability
